EPA Statement

Based on the conclusions from the investigation lead by the Texas Fire Marshal, EPA will determine possible violations to federal law and establish fines. We do not yet know what happened at this facility. We cannot speculate on the EPA fines or penalties until we know more. Questions regarding the investigation should be directed to the State Fire Marshal's office.

EPA criminal investigators continue to assist in the investigation with other federal authorities including the Alcohol, Tobacco and Firearms (ATF). Questions regarding the criminal investigation should be directed to the U.S. Attorney's Office of the Western District of Texas.
